Pure Spring Water
ABSOLUTELY FREE FROM IMPURITIES.
Sykes Drug Company.

Wright's Epsom Lithia Water.

This water belongs to the saline class, of which the essential and active agent is Sulphate of Magnesia (Epsom Salts). The great preponderance of this agent gives it marked advantage over other waters of its kind. Its effects are laxative, diuretic, tonic and alterative. It is indicated in all functional derangements of the stomach, bowels, liver, kidneys and bladder. The laxative action is peculiarly effectual and as a remedy for constipation it is without a rival among mineral waters, or drug remedies. If you are a subject of this common and annoying complaint give Wright's water a fair trial, and you will certianly be pleased.

J. A. Summers, Prop.,

REFUSE TO BUY.

Water Commission Refuse to Buy the Water Works Plant.

The Water and Light Commission, at their meeting yesterday afternoon made the following report to the Board of Aldermen concerning the purchase of the Greensboro Water Works:

Resolved by the water and light commission of the City of Greensboro that

Whereas, Mr. R. R. King, receiver of the Greensboro Water Supply Company and the Committe of bondholders have failed to comply witth his contract with the City of Greensboro in that they have failed to turn over the Water Works System to the City at the time agreed upon and refuse to indemnify the city against judgments and suits as agreed, and now refuse to give the city a clear, indefeasible title to said property free of all incumbrances, liabilities and liens as agreed, but offer the city a title to the said property with judgment liens docketed against the property and other suits pending against the said property, and whereas the said commission is advised by its counsel and is of the opinion that the said receiver and committee have not complied with the said agreement.

Therefore the commission declines to accept the title offered and hereby instructs the city attorney to notify Mr. King of this action by sending him a copy of this resolution.

An Object.

CITY'S FINANCIAL CONDITION IS EXHIBITED TO THE BOARD

THE NEW BOOKS IN WHICH THE CITY'S ACCOUNTS ARE TO BE KEPT

Prof. Forney Makes a Thorough Explanation to the Board—The Condition of the City's Finances as Shown by an Expert Accountant—The Books that Will be Used in Keeping the City's Affairs Straight in the Future—Trial Balances Will be Made Each Month.

Greensboro, N. C., July 26, 1901.

To the Board of Aldermen, City of Greensboro, N. C.:

In accordance with the instructions of the mayor, who was empowered by the special committee created by resolution of the Board of Aldermen to have the city books put upon correct accounting basis, I beg leave to submit the following, together with the accompanying sheets.

In the construction of the assets and liabilities, I have exhausted so far as possible every avenue of information open to me; but the city's interests are so varied and far reaching that a few items may have escaped my attention. I believe, however, you will find these figures approximately correct. The property values have been suggested to me in most cases by members of Aldermen.

The trial balance of May 1, in which appears a complete list of assets and liabilities, will show the financial condition of your city May 1, 1901, the beginning of your fiscal year; and the trial balance of July 25th, (yesterday) will give you the condition then.

In the trial balances the City tax collector has been charged with the unpaid taxes May 1, with all cemetery lots sold since May 1st, with the aggregate amount of special licenses since May 1st, as exhibited by stubs of books in his possession. He has been credited with money turned over to the city treasurer.

When the city tax list is completed he will be charged with the total thereof, and the proper revenue-producing accounts will be credited. These accounts will then show approximately the amount of yearly income of the city. Provision has been made for monthly postings, thereby keeping you in touch with any increase in special licenses, the sale of cemetery lots, and other revenue.

The proper handling of the budget is an important factor in municipal bookkeeping, and provision has been made for this account. The different public departments to which annual appropriations are made, will, when your budget is submitted, be credited with the respective amounts, and a general representative account revenue and expenditure account, will be debited. In the trial balances herewith the public departments show only debit items, as no budget has yet been submitted by the aldermen; therefore the advantages of this feature of municipal accounting can only be referred to, not shown, and it is not easy to compare the totals of the revenue-producing accounts, which show a credit. At the end of the year the revenue-producing accounts will close to the credit of the revenue and expenditure account created by your budget, thus bringing the receipts and expenditures together.

In this connection it is suggested that at the beginning of the fiscal year, a budget, based mainly upon the receipts of the former year, be prepared by the Board of Aldermen, and entered on the books, and as the tax list licenses, etc., take definite shape during the year, the budget can be increased or reduced to meet the contingencies as they arise. As it is now, you lose he direct benefit of your budget four or five months of the year, waiting upon the collation of your outlined revenue lists.

The books to be used in the method of bookkeeping oulined will be the Ledger, Journal, Cash Book, Voucher Book. While the new voucher book recently purchased does not meet the requirements in all particulars, yet by slight modifications, which will be clear to any one, it can be made to answer the purpose. We have bought a journal and cash book. As the uses of the above books are well known, it is not deemed necessary to make extended remarks on them.

I would suggest that the city clerk keep all original bills as vouchers pasted seriam, (the numbers agreeing with the warrants drawn) in a good substantial invoice book. This feature will add str[illegible] to the set of books just opened for the city.

Respectfully submitted,
E. J. FORNEY.

GREENSBORO, N. C., July 26, 1901.

W. C. T. U. DEPARTMENT.

What the W. C. T. U. really is.

Even in this enlightened period there are a great many people who do not realize in the least what the W. C. T. U. really is. They imagine that it is an organization of cranks and fanatics, whose purpose is to promote woman's suffrage, and wage bitter war against the lipuor traffic. The last named in one of the chief objects of the organization, but many people do not know, or entirely lose sight of the many other good things that the W. C. T. U. has done. While there may be in this, as in every other great movement that was ever statred, a few cranks and "new women," the Woman's Christian Temperance Union is a liberal minded and far-reaching organization and anyone interested in mission work, either home or foreign, cannot find wider scope for their energies than to engage in this noble work. They do a large amount of foreign mission work in addition to teh home mission work they are constantly doing. From time to time they have sent out round-the-world missionaries, who have used their best efforts to counteract the effects of the Amercian whiskey, which is sent out in such large quantities to the heathen that we are trying to convert. Since the beginning of the movement they have had seven missionaries who have hade a tour of the world and many others who have done efficient work in foreign fields. At present Mrs. J. K. Barney is laboring among the soldiers and natives in Cuba, with good results.

Another work which the White Ribboners are carrying forward very successfully is the flower mission and jail work. What they have accomplished along these lines alone is enough to convince any thinking person that they are on the right road.

They are working along so many lines that it would take too much space to tell them all, but it can be briefly summed up by saying that their aim is to do everything in their power to make homes happy and the world better.

* * *

A travelling man, who has been on the road for more than twenty years was recently talking of the changed conditions among business men. He said that in times past a travelling salesman could take two or three days off and get drunk and have a good time, generally, when he happened to catchr a town where he could enjoy himeslf, and his house would overlook the matter, provided he was a good salesman and could get orders.

A great many of the merchants were of the same tiype as the travelling men and when they wrote for a certain drummer to come around that meant several days of carousal and "fun," as they called it.

But now all that is changed. Competition is strong and the man who succeeds must work and not spend his time in debauching. The salesman who sells the most goods nowadays is the keen man, who is ever on the alert and can give a merchant the best goods for the lowest money, and not the one who can drink the most whiskey and give the merchant the most fun.

Neither merchant nor salesman can afford to waste so much time and money when the world is moving forward so rapidly.

How to Use Sour Milk.

There is usually a superabundance of sour milk at this season of the year, and it is well to be provided with a variety of receipts in which it may be used. The following receipts have all been tried and have proved satisfactory, and the result has been a decided addition to the table with very little expense.

BREAD CAKES

Take one pint of bread and soak it in sour milk until soft. Rub through a colander, add a little more sour milk. To one quart of this, add two eggs well beaten, a little salt, three-quarters of a teaspoonful of saleratus, and flour enough to make a batter a little thicker than for the ordinary pancakes. Bake on a hot griddle.

GRAHAM GEMS.

One pint of sour milk, with one even teaspoonful of salteratus, stirred into it, one teasspconful of brown sugar, one tablespoonful of melted butter and about one quart of graham flour or enough to make a thick batter.

CORN GEMS.

One egg, two cups of sour milk, one an da half cups of Indnian meal, one and a half cups of flour, two teaspoonful of soda and a little salt. Bake in hot gem pans or in a loaf. In the latter case omit one teaspoonful of the shortening.

SPIDER CAKE.

Mix together one-third of a cup of flour and one and two-thirds o fa cup of Indian meal. Add two eggs one cup of sour milk, one small teaspoonful of saleratus, one cup if sweet milk, quarter of a cup of sugar and a little salt. When mixed have ready a hot spider with butter half the size of an egg melted. Then pour in the above and add another cup of sour milk without stirring. Bake 25 minutes.

DON'T SUFFER

The languishing tortures of Dyspepsia. you can't stand it. Take "Coleman's Guarantee," a positive cure for all forms of dyspepsia and constipation. A cured man says: "I take Coleman's Guarantee, eat what I want, and am happy." Price 50c large bottle, at druggists.

Mercury AND Potash

Everybody knows that Mercury is a dangerous medicine even when administered in very small doses, and few constitutions can stand it for any length of time.

Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhœa follow its use.

Now, the doctors will tell you if you have Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on *ad infinitum*, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or eighteen years ago, I contracted Blood Poison in a bad form, and am satisfied that the rapid progress the disease was making would soon have made me a life-long invalid or ended my life. As my system came under the influence of S. S. S., the sores, splotches and pimples gradually disappeared and soon no evidence of the disease was left. I am now thirty-nine years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it. WM. EMERSON, Pevely, Mo.

S. S. S. is the only antidote for this destructive virus, and an infallible remedy for this peculiar poison. It destroys and eradicates every particle of the poison, and makes the blood as healthy and pure as before the disease was contracted.

S. S. S. is the only purely vegetable blood purifier known, and we offer $1,000 for proof that it contains any mineral ingredient whatever. The general health improves as the Specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison disappear; strength returns and you are forever rid of this loathsome disease.

Our Home Treatment Book on Contagious Blood Poison tells you all about the symptoms, different stages, etc., of this disease. We will mail you a copy free.

If you need advice or special directions, write our physicians; it will cost you nothing and may hasten your cure. THE SWIFT SPECIFIC CO, ATLANTA, GA.

HOW TO KEEP COOL.

Useful Knowledge This in the Dog Days.

It is a serious question during the extreme hot weather how to keep the house comparatively cool so that one can exist with out too serious suffering. One frequently sees in the papers papers the advice given to shut up every window as soon as the house has been aired. In consequence of this the air in the house becomes heated and impure, and instead of any benefit being gained every member of the family suffers from depression and severe headache.

A much better plan is to have every window and door protected and to allow a constant current of air to pass through the house, thus providing at least fresh air for the lungs. This may be all accomplished with but a very small out lay of money and a vast increase of comfort. First of all purchase mosquito netting by the piece. This may be had in eight-yard pieces, two yards wide, for 50 cents a piece. If you get the netting in a dull-gray color, without the woven bars through it, it is almost invisible either from the room or from the street. Let this cover the entire frame of the window. Leave at the bottom of the window a small space untacked.

As it is the heat of the sun upon the glass which makes the intense heat in unsheltered rooms, the main object should next be to protect the glass from the rays of the sun. To accomplish this have made curtains of awning material which will fit outside the windows. These may be properly made by an upholsterer for the sum of $1 for eac curtain. They are really cooler than the awnings that have been in use for so long and cost very much lesss. These curtains may be drawn down sufficiently to protect the glass from the sun and at the same time allow afree current of air to enter. When the sun shines full upon the window in certain portions of the house the curtains may be lowered all but an inch or two, and as the sun leaves that part they may again be raised.

Let all doors be protected by screen doors, and if these are covered with netting rather than with wire screening there will be a much better chance for the air to enter, although there will not be the same protection from outside visitors. Parlor windows and front doors are better protected by the wire netting, but all chamber windows may be raised to their full height.

THE POPE'S SUCCESSOR.

His Death Being Anticipated—Six or Seven Cardinals Want to Accept the Chair of St. Peter.

Rome, July 25.—Although the Pope is in excellent health, the feeling prevails at the Vatican that a meeting of the College of Cardinals cannot be far off, and there is no secret that the candidates to the papacy are making elaborate preparations for this conclave.

One of the chief characteristics of the next conclave, according to a high prelate, will be the large number of candidates for the chair of St. Peter, whereas, after the death of the former Pope, it i s said there were only two or three candidates chose unounu nnn papacy were serious. To day half the sacred college aspires to the chair and a first scrutiny is expected to show six or seven cardinals are favored for the pontificate. Those who are well informed anticipate a deadlock, and the ultimate selection of an outsider who has not yet been mentioned.

It doesn't make any difference how jolly a fellow is, there is always a jollier.

Chicago Chronicle.

A New York appeliate court has given a decision likely to become authoritative concerning ther ights of desestrians and the pretensions of traction companies to own the streets.

Affirming a verdict arising from killing a boy who, it is claimed, could have got out of the way of a car and did not decision runs: "The right of a railroad company to use the public streets is conditioned upon the right of the public also to use them in the ordinary way, and no railroad company has the right so to block the streets that the pubilc are excluded from crossing them except at the risk of being run over. It cannot be contributory negligence for a person to start to cross a track when the car is at such a distance that the mortorman can prevent its running him down if attending to his business and operating the car in a careful and prudent manner."

The traction companies assume in Chicago that the people have no right the are yoy lyolyl yolyl ylyolylylyl they are bound to respect either as to fare or as to wayfaring. The courts aregradually reading the law to them in a way to inspire contrary conviction.

A Great Chairman.

Detroit Free Press.

It strikes us that Congressman Cannon, of Illinois, would be wise to keep out of the Senatorial race, where the pace is going to be decidedly swift. As chairman of the House committee on Appropriations, he is much more prominently before the country than he could hope to be in the Senate, and comes more nearly having his way in way in that important position than any chairman we now recall.

No, Maude, dear, despite its alluring name, the jelly fish is not good to eat.

Lots of men who preach charity wait for other men to practice it.

COKE DANDRUFF CURE

is the only "guaranteed" or money back cure for Dandruff, Hair and Scalp Troubles. Over one million bottles sold. If **Coke Dandruff Cure** fails to cure "your" hair and scalp ailments you will be the third to ask for your money back, and you'll get it, too. All barbers use it. For sale everywhere.

Coke Shampoo & Toilet Soap

made expressly for shampooing the hair and beautifying the complexion.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. **Mother's Friend** is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear fixing or swelling spells, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

Get Mother's Friend at the drug store. $1 per bottle.

Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel trouble," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction It affords a quick and sure cure in a pleasant form." For sale by C. E. Holton, druggist.

WINE OF CARDUI

A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.

No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.

MRS. GRACE LAMPHERE.

McELREE'S Wine of Cardui

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles".

There are a few other bills against the city hall and street bond fund, but as these funds are sufficient to take care of them, it is not deemed necessary to tabulate them here.

TOURNAMENT IS OVER.

The InterState Contests at Charlotte are Run—The Result.

The thirteenth annual convention of the North Carolina State Firemen's Association which convened this week in Charlotte, is now a thing of the past. The result of the last days' tournament is given below. It is taken from the Charlotte Observer:

THE HORSE HOSE WAGON RACE.

Five teams, the Delgar, of Sumpter; Fire Company No. 1, and the Eclipse Steam Fire Company, of Goldsboro; Hose Company No. 2 of Durham, and Steam Fire Engine Company No. 1, of Winston, entered. The Delgar, well remembered here as the wagon that was driven by a negro of the ante-bellum school, in the tournament two years ago, was the first to come down the pike. The negro drove the horse as well as he ever did and the young men handled the hose with a swiftness that was admirable. The record made was 49 2-5 seconds. It was not bettered. Fire Company No. 1, of Goldsboro, followed and won second place with 41 seconds. The wagon of this company was drawn by Jerry, the beautiful large, fat light gray horse that wore the green ribbon about his head and neck the day of the parade. He was admired by all who noticed him. He is made of a fine quality of horse esh. Durham was third on the programme, but failed to make the connection of the plug. The Durham horse is trim, muscular, high-headed and a splendid runner. He did his part well. The Eclipse Company, of Goldsboro, failed to make the nozzle connection. Winston ran last and made a record of 45 2-5 seconds.

The judges in this contest were: J. F. Maddry, of Durham; H. E. King and J.W. Spicer, of Goldsboro; F. T. White, Winston, and L. J. Taylor, Newbern. President McNeill, R. C. Taylor and George Fitzsimmons were the timers.

THE HOOK AND LADDER RACE.

The contest was followed by the hook and ladder race. Southside, Greensboro, and No. 1, Winston, were the only entries. Winston made the run in 47 seconds and Greensboro made it in 48. The first prize went to the Twin City and the second to the Gate City. W. O. Gattis, of Goldsboro and J. F. Maddry, of Durham, acted as judges. This contest was followed by the hand reel race.

THE HAND REEL RACE.

The Charlotte team made a record of 30 3-5 in this race and captured the first prize, while Greensboro placed it in 30 4-5, and took second money. Henry and Herman Beediger, the flat-footed brothers, pulled the Charlotte reel. Billy Charles made the plug and Ben Swinson coupled the nozzle. Spencer failed at the plug and Durham threw water in 31 4-5 seconds. The Charleston, S. C., team folowed with 31.

THE GRAB REEL RACE.

The same teams that ran in the hand reel races, with the exception of Greensboro, entered the grab race. The Spencer team turned the hose on within 20 3-4 seconds after the pistol fired Charlotte was a close second with a score of 21. Durham took third place with 22 4-5, while Tarboro and Charleston tied on 24.

The judges for both contests were: R. D. Douglas, Greensboro; H. E. King, Goldsboro; J. F. Maddry, Durham; D. R. Julian, Salisbury; R. C. Taylor, Winston, and J. L. Taylor, Newbern.

THE JUNIOR REEL RACE.

While the competitors for the individual foot race were preparing for the track the junior reel teams of Charlotte and Greensboro ran for a cash prize of $15. The Greensboro lads outplaced the Charlotte squad at the ratio of 19 to 22. Both teams did their very best. They were in earnest. The home team did not lose because of a lack of speed on Sis Youmans' part for he threw his head back and came down the macadam at a 2:40 gate. He fanned the atmosphere so vigorously that clouds quickly gathered and a shower of rain fell. But when seen by an Observer reporter last night, as he held forth in front of the Western Union Telegraph office, he explained that had he been permitted to run in nothing but his soft solid shoes he would have carried his team to glory.

THE FOOT RACE.

Mr. Henry Roediger, of Charlotte, won this race in a walk. He made the 100-yard dash within 10 2-5 seconds. He is a quick starter and a graceful mover.

The Teachers Institute.

The Guilford County Teachers' Institute will be held in court house all of next week, commencing Monday. It will be conducted by W. T. Whitsett, of Whitsett Institute. Gen. Toon, State Superintendent and others will deliver addresses. There are about one hundred teachers in the county. These are required by law to attend. The Teachers' Association will meet on Saturday. The public is invited to attend.

To Leave Today.

Dr. L. M. Humphrey, who has recently located in our city for the practice of his profession (dentistry), will leave today to attend the North Carolina Dental Association, which convenes at Nashville, Tenn., July 29. He being officially appointed. Dr. Humphrey is also appointed to represent the same body at National Dental Association in Milwaukee, Wis., which meets August 6. Dr. Humphrey's office is in the the new building of the Greensboro Loan and Trust Company.

Examination to be Held.

There will be a clerk and carrier examination held in the Government building in this city on September the 7th. Aplications for this examination must be filed on or before August 26. The examination will be conducted by Mr. R. W. Hodgin, secretary of the local board.

Jumped the Track.

Engine number 75, of the Southern Railway, jumped the track in the yards this morning. No considerable damage was done, beyond tearing up the track, and this was soon repaired by the section hands.

Can You Eat

anything you want? Most people cannot. When you can't, its called "indigestion," which develops "dyspepsia"—the agonizing terror of the age.

Coleman's Guarantee

positively cures all forms of indigestion and dyspepsia. "Take it, eat what you want and be happy."

CURED BY ONE BOTTLE.

"I suffered for several months with indigestion and *could scarcely eat anything* without intense suffering afterwards. I found no relief until "Coleman's Guarantee" was recommended. I bought one bottle, and took it as directed, and from the very first found relief, and by the time I had taken the first bottle was not only feeling better, but was entirely cured."

THE CITY WATER IS IMPURE.

BIOLOGIST SAYS IT IS LITTLE BETTER THAN SEWAGE WATER.

People Who Drink the Water do so at Their Own Risk—Water was Impure on the 10th of This Month—May be Deadly Now.

During the session of the Board of Aldermen last night the subject of the purity of the water supply of the city was touched upon, and Mayor Osborn stated that an analysis has been made of the water by Mr. Gerald McCarthy, biologist of the Agricultural Department, and that this examination showed the water to be impure. The report stated that it was fit to drink only after having been filtered and boiled. This examination was made on the tenth of this month. At the same time this examination was made a sample of the city water after having been through the filterer of the Southern Loan and Trust Company was made, and the report stated that this water was good.

The report stated that there was in the water a percentage of human excrement. In other words, it is but little better than ordinary sewerage water. Many people of the city are drinking the water at present with no idea of its condition.

The analysis of the water is not given to the public by the Telegram this afternoon because it is impossible to get it, as the gentleman at whose instance it was secured, is out of town.

Many of the readers of this paper will recall that last year after much discussion, a committee of citizens went to the water works and examined it, and will recall the condition of things then. According to the report of reputable physicians, the condition of the water today is just as bad. No examination has been made since July the 10th, and at that time the water was impure. Since that time millions upon millions of disease germs have come into existence, and today the water from the city water works may be full of typhoid germs. Whether filled with typhoid germs or not, the fact remains that upon an examination being made of the water it was pronounced by an expert to be impure and not fit to be used as drinking water until it had been boiled and filtered.

The Telegram sounds this note of warning that the citizens may know what manner of water they are drinking.

TO BE REGRETTED.

Friends of the Advocate Regret the Attitude of Dr. Kilgo.

To the Editor of The Telegram:

The friends of Trinity College and of the North Carolina Christian Advocate in Greensboro regret that the attitude long maintained by Dr. Kilgo towards that paper and its excellent editor has led to a personal difficulty between the Doctor and the editor's son who felt called upon the resent an insult and repeated attacks upon his aged father by Dr. Kilgo.

They claim for Mr. R. B. Crawford, the son, that he has never before had a personal encounter, nor even an altercation of words, with any man. He is one of the best type of Christian workers in North Carolina Methodism. It is unfortunate that any one should so far presume upon another's peacefulness of character as to offer a burning insult and expect no resentment.

ADVOCATE.

VICTORS WELCOMED.

Southside Hose Company is Given an Ovation.

The victorious Southsiders returned to the city this afternoon on train No. 36. They were met at the depot by the fire department of the city, and by many young ladies and enthusiastic citizens and were by them given an ovation. The line of march was taken up and the procession marched to the county court house, where they were in the absence of Mayor Osborn, addressed in a short but appropriate speech by Mr. Z. V. Taylor.

The procession then reformed and marched to the Southside lawn, where there was spread for them a feast of good things to eat and drink. At the conclusion of this feast, the food not eaten was gathered together by the ladies and sent to the poor. The Southsiders, in addition to winning the belt, received $100 in money; the Hook and Ladder Company received a similar amount of money and the Junior Eagles received prizes to the amount of $50.

HAD A PLEASANT TIME.

H. T. Club Entertained at the Residence of Mr. and Mrs. Merrimon.

The H. T. Club were entertained last night at the hospitable residence of Mr. and Mrs. B. H. Merrimon. An enjoyable time was experienced by all present. Delicious refreshments were served. Those present were:

Mr. Edney Ridge with Miss Dot Thacker, Mr. Fred Crawford with Miss Pauline Pretzfelder, Mr. Walter Bardy with Miss Carrie Wood, Mr. Arthur Forbis with Miss Lula Tate, Mr. Chas. Wheeler with Miss Maude Stockard, Mr. Jesse Mebane with Miss Margaret Merrimon, Mr. Frank Crawford with Miss Mary Merimon, Mr. Cummins Mebane with Miss Laurine Forbis, Mr. Wistar Stockard with Miss Etha Ridge.

TO PROTECT PARK TREES.

Action of the Board of Aldermen Last Night.

The Board of Aldermen met last night in regular session with Mayor Osborn in the chair, and the following aldermen present: Ellington, Sherwood, Denny, Bain, Sergeant, Merrimon, and Glascock. The minutes of preceding meeting were read and approved.

Mr. Z. V. Taylor appeared for Mr. R. P. Walters who represents a chemical engine company, in the interest of getting the city to buy a cart to be used by the chief of the Fire Department, in the rear of the said cart a chemical engine to be placed. Mr. Walters offered if the city would pay one half of the cost price, viz, $2,000, he would go out among the citizens an raise the other half, thus enabling the city to get the apparatus at half price.

Alderman Denny moved that it be referred to the Fire Committee. Carried.

Mr. V. C. McAdoo appeared in regard to the bill recently rendered the city for phone service, and stated that the custom over the tSate was to give municipalities one phone free, and his company was at the present time giving one free phone, and thought that was sufficient.

Alderman Glascock moved that the bill be paid.

Upon motion duly made and seconded the matter was postponed.

The question of granting a telephone francise to McAdoo Bros. was referred to the city attorney.

Prof. E. J. Forney, who for some time, has been engaged in the work of opening the new books in which are are to be kept the city's accounts made a report of his findings. Prof. Forney made a talk to the Board explaining thoroughly the condition of the city's affairs.

Alderman Ellington moved that the report submitted be spread upon the minutes. Carried.

It was moved and carried that the estimate of Abbott & Hobbs for curb setting be paid.

Alderman Denny thought that the signs nailed on the trees in the city parks be taken down as they are damaging to the trees.

Alderman Sherwood stated that Mr. Frazier, the retiring cemetery keeper, had a barn, and various implements which he would like to sell the city. Referred to the cemetery committee with power to act.

A change in the name of the firm comprising the Greensboro Wine and Liquor Company was permitted.

Mr. A. M. Scales made an informal report of the action of the Water and Light Commission.

The application of Mr. John Barker to retail liquors at his store on West Market street was taken up. A communication against granting said application was read from Mrs. C. C. Gorrell.

Alderman Denny thought that it was against the ordinance to have a saloon behind a store, and asked the opinion of the city attorney. The city attorney thought it was against the ordinances.

Alderman Sherwood thought that the license should be granted. Upon motion the matter was continued until the next meeting.

Mr. Scales stated that Mr. J. R. Donnell wanted the city ordinance relating to solicitors on the depot platform, to be amended so as to permit his baggage transfer solicitors to solicit on the platform.

Alderman Bain moved that it be rejected. Carried.

Alderman Merrimon thought that a special meeting should be called in order to consider the question of sewerage; and he thought the city should proceed immediately to the work of putting in the trunk line of sewerage.

Alderman Denny moved that when the Board adjourned they adjourn to meet Friday night. Carried.

Alderman Sergeant thought that the sewerage matter should be begun at once.

Alderman Denny asked if the railway ordinaces had been enforced.

In response to a request by the mayor, Alderman Sergeant was made mayor pro tem.

Mr. C. W. Battle was granted license to do plumbing work.

Alderman Denny offered the following ordinance which was adopted:

Be it ordained by the Board of Aldermen of the City of Greensboro,

1. That the city parks and public squares shall be under the care and control of the street committee.

2. That it shall be unlawful for any person to injure any tree, shrub, or other plant, any park or public square, or in any way to injure the drives, lawns, streams or other parts of said parks or squares. Any one violating this ordinance shall upon conviction be fined $5.

Moved and carried that bills in and properly O. Kd. by the purchasing committee be paid. Carried.

Dr. Anderson was ordered to be paid $20 for services rendered the city in examining samples of water.

Board adjourned.

His Weight was Less.

To the Editor of The Telegram:

In a statement from Dr. Kilgo's friends in the press reports of the 23rd instant, there was an error, whether intended or not, as to Mr. Crawford's weight which, to be exact, is only 155 pounds, whereas their estimate gave it 175 to 190 pounds. When a direct insult is offered it is not usual for the next thing in order, that the insulted gentleman asks for a comparison of avoirdupois. That should he looked into in advance by the affronting party, otherwise neither he nor his friends should suggest a disparity of weights in the aftermath.

CORRECTNESS.

HE WAS TIRED OF HIS LIFE.

NATURALIZED GREEK COMMITS SUICIDE NEAR THIS CITY.

Threw Away His Deck of Cards, Buckled His Strap Around His Throat, Tied the Other End to a Sassafras Bush, and Passed Into Eternity.

Greensboro is getting to be headquarters for sensations of various kinds. The latest one developed is a suicide of unusual character, which occurred day before yesterday evening, but which was discovered only at a late hour yesterday afternoon. The suicide was of Greek nationality, by profession, a candy maker, and by practice an umbrella mender. His lifeless body was found yesterday afternoon by Mr. John Stagg, near the roadside at a point about one-fourth of a mile beyond the Armfield mill. Coroner Turner was immediately notified, went out and viewed the remains, and then turned them over to Aaron Mendenhall, who interred them at the poor house.

The name of the man who had tired of life and who ushered his soul into the presence of its maker was Panaeodis Castalos. He was a naturalized citizen of the United States, and his naturalization papers were made out in New Orleans in 1898. He went by the name of Peter Castalos, and from papers found on his person, it is believed that he was in the war with Spain.

On his person was found sixty odd dollars, so the cravings of hunger did not cause the deed. His manner of making away with himself was entirely out of the ordinary, and shows that he was a man of nerve.

The last time he was seen alive was on last Thursday afternoon near the place of Mr. Sam Fields, which is also in the vicinity of the place in which he hanged himself. Yesterday morning Mr. Stagg came to Greensboro and in passing the spot noticed the implements of an umbrella mender lying by the roadside. He thought nothing of the occurrence until in the afternoon on his return home he again saw the tools lying in the same place. He thereupon stopped to investigate and on looking into the hedge or small thicket which runs along the roadside at that point, saw the face of the dead man gazing at him.

The Greek had untied the leather strap which he used to suspend his bundle with, had buckled it tightly around his neck, tied the other end around a limb on a small sassafras bush, then raising up his feet from the ground strangled himself to death. When the coroner arrived he found that the man's knees were touching the ground, but the ground was not trampled or the dirt kicked up as would have been the case had the dying man struggled. In the thicket near by a pack of cards was found, evidently thrown there by the tramp before his demise.

No cause is known for his suicide, but an examination showed him to have been the victim of a loathsome disease, and it is surmissed that this may have caused him to commit the act.

There are several Greeks in the city, but none of them seem to have had any knowledge of this man. Coroner Turner has the money in his possession.

A Pleasant Occasion.

A party of young folks went to Guilford Battle Ground last night on a moonlight picnic. The evening was spent most pleasantly by all present. Supper was eaten by the light of the moon. Those present were:

Miss Susie Sheets and Mr. Frank Boyles, Miss Fannie Vestal and Mr. Sidney Peters, Miss Mary Trotter and Dr. John Wheeler, Miss Bertha Wheeler and Mr. Hege, Miss Hattie Watlington and Mr. Floyd Ross, Miss Nannie Lee Smith and Mr. Lee Crawford, Mrs. F. E. Ross and Miss Bettie Armfield, chaperones.

Runaway This Afternoon.

A runaway team on South Elm street this afternoon created an excitement. Two horses attached to a wagon were driven past the depot and were frightened by a passing train. The horses dashed up South Elm street, and ran into the delivery wagon belonging to the Merchants Grocery Company. The wagon was occupied by a lady and a gentleman, and the contact threw the lady out of the wagon, but did her no serious injury.

Was Late Again

The northbound local train was quite late in reaching the city again today. It is said that the delay was caused by an accident to some portion of the engine. Accidents to the engine machinery are becoming quite frequent of late.

Kimball in the White House, Washington, D. C., is used on all state occasions, and it is a significant fact that this piano is rendering higher service to music than by other pianos made, and many homes are happier at the close of this week, than they were ten days ago, from the fact that a beautiful Kimball is to be found in their parlor. Many more will be made happier and more pleasant ere the close of another week, as the remainder of the large shipment received ten days ago must be closed out during the coming week in order to make room for two more car loads which will leave Chicago the early part of next week. Would it not pay you even if you had to make some sacrifice, to take advantage of the exceedingly low prices we are making, and place a Kimball in your home? Call on or write us for prices and terms.

President CHARLES D. McIVER,
Greensboro, N. C,

I have been afflicted with Catarrh for 10 years, and for years past could not hear with any satisfaction. I tried different waters—Buffalo Lithia, the White Sulphur of Mt. Airy, Warren County water, and Moore's—also all kinds of medicine recommended for Catarrh, including Hall's Catarrh Cure. Several physicians treated me; but I got no relief until I used Vade Mecum water. It has done me more good in four weeks than all other remedies in years. I am in my 89th year, and have gained seven pounds since I begun to use this water. It has given me a new lease on life. In all my long life I have never known such a remedy. It is a blessing from God, intended by Him to heal the people. ALEX NADING, Winston, N. C., October 22, 1900.

Got a Colored Shirt?

Most men have—generally several. Some of them cost quite a small sum, as shirt prices run. Would you like to see them ruined the first time you sent them to the laundry? Of course not. Then why not send them to us where they will be safe? We do not fade them or run the colors together.

Dick's Greensboro Steam Laundry.

PREMIUMS ON IGNORANCE

Southern Papers Quoted Against Drawing the Race Line in Suffrage.

Phiadelhia Press.

The long debates on the suffrage question in the Alabama and Virginia constitutional conventions and the many plans suggested for its settlement are healthful indications of a growing opinion of the importance of this problem. There is every probability that some scheme will be adopted by these conventions which will disfranchise practically all the colored voters and leave the ballot in the hands of of every white voter, no matter how ignorant he may be. But the hesitation shown in indorsing any radical plan is proof that the South is not so sure of its ground on this subject as it once thought itselt to be.

Some Southern newspapers are speaking out decidedly against the adoption by any more Statees of what is known as the "grandfather" clause, which has become them ost popular plan of disfranchising the colored man. The Wetumpka, Ala., Herald, for instance, says: "If theg randfather clause is made a test to vote, a premium will be put on negro intelligence, and a corresponding lack of incentive will be placed on white intelligence. If the negro is required to read and write before he can vote and the white man is allowed to vote because he can't read and write, and his grandfather was allowed to vote in 1867, within less than twenty years the negro will be educated, at least up to the point of voting, and the white men of our beloved State will still be predicting their ights to vote on ignorance, and the right of their grandfathers to vote in 1867."

Stated in a few words, the South by the methods it is adopting to disfranchise the colored man, is putting a premium on white ignorance. Such influential newspapers as the Atlanta Constitution and the Richmond Times see the danger this course involves and are warning the Southern people against it. The former puts the matter in this way: "While some short sighted people regard only the political aspect and would legislate for white dominance through black exclusion, the question must be regarded in its larger light. A partial victory gained, the real contest still remains, for the colored man going to college will be better armed than the white man remaining in the field, notwithstanding the possession of the franchise by the latter. Of what use to the white man is the franchise if the negro possesses the key to every other avenue of life which education opens to him? While this white man may become a county sheriff or a tax collector, the educated negro in possession of the secrets of nature and skill can afford to pass him by with somewhat of an air of unconcern." And the Times adds in the same vein: "We may talk as much as we ease about the superiority of the white man, but the skillful mechanic, whether his face be white or black, has the advantage over the man who has had no training| This is a practical age, an industrial age, and the South is face to face with a new condition."

These are warning which the Southern people should heed. They come from their own thinkers and leaders, and not from outsiders.

A POLICY TO TIE TO.

What Protection Has Accomplished and the Silk Industry Fairly Illustrates It.

New York Commercial.

With some recent comments by the Commercial on the American silk industry as a t ext the Troy Times reads a wholesome and timely lesson to those free traders—the whole un-American pack—who for years offered the most stubborn organized resistance to every effort of American manufacturers to foster the silk industry here at home. They fought to let foreign silks in free of duty, and sneered at al lour early experiments in sik-making. "Wh yattempt the impossible?" was the argument of the freeltraders. "Why protect an industry tnat can never amount to anything any way? All really good silks must be imported—and no self-respecting woman would wear an American product."

"But," says the Times, "the American sik manufacturers went right along, and good protectionists saw to it that encouragement was given to the industry. It has won its way to success, repeating the history of American knit goods, hosiery, steel rails, tinplate, and scores of other commodities that we now make better and at ess cost to the consumer than the same silk has come to stay."
articles produced abroad. American

Yes, and before many years we may be producing every yound of the raw material that our silk mills can weave and sell.

And is peculiarly instructive just at this time to reflect that had we ever surrendered to this free-trade sentiment the United States would now be industrially just where it was toward the close of the eighteenth century—a great importing nation dependent on the Old World for practically everything manufactured that is consumed.

If we surrender now to that sentiment we shall regret it, just as surely as protection has built us up into the greatest commercial country in the world. Our industrial enemies at home are still in the saddle.

Rum is the greatest fool-killer

Lots of people run to meet trouble.

The least amusing poet is often the most a-musing.

It isn't always the close-fisted man who keeps his temper.

THE W. W. KIMBALL CO.

Is the only manufacturers of pianos and organs who received the award of

"Superlative Merit and Highest Standard of Excellence"

at the world's fair: For tone quality, which is full, round, sympathetic and musical. The duration of the singing quality of the tone is remarkable. The scale is even and free from breaks. The action is first-class in every respect. The touch is easy, elastic and prompt in response, admitting of the most rapid repetition. Materials and construction give evidence of extreme care in their selection and workmanship, and are of the highest class. The designs are of great artistic excellence and are finished in the most perfect manner.

THE KIMBALL PIANO

received in addition to their diploma at the Omaha Exposition, 1898, the only Gold Medal awarded any Piano.

While the enormous sale is going on at the Southern Warerooms, why not avail yourself of the opportunity it affords and place one of these magnificent instruments in your home. Remember freights only are added to the manufacturers' cost during this sale. If you have an old instrument that you wish to exchange for a new one we will give you what it is worth.

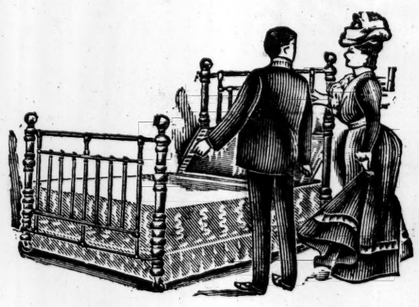
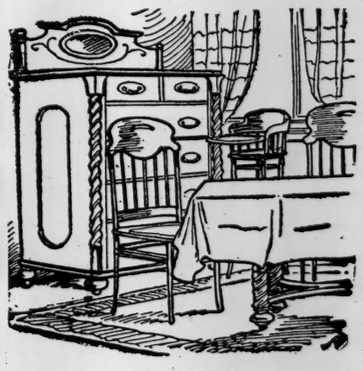
You Can Get Anything From the Cheapest to the Finest and Highest Art Produced in Wood.



The PRICES tell the story at this always busy and successful store.



On the same grade of goods you will save at least 25 per cent. Just at this time people are willing to save all they can in a purchase. So don't make a mistake by not seeing these goods before buying and be your own judge.

C. O. FORBIS,

No. 120 East Market Street Near Post Office.

HERE'S ANOTHER DELICACY:

Slice peaches into your dish of Ralston Breakfast Food, then add cream and sugar.

Of all breakfast foods, Ralston is the greatest palate-pleaser, because it's unsterilized.

Cooked in five minutes,

Ralston Breakfast Food

retains the delicious flavor Nature has bestowed on Gluterean Wheat, and is cooling nourishment because it don't overheat the blood.

The acid of fruit brings out the fine flavor of Ralston in striking contrast to inferior foods.

Gave a Lawn Party.

The Baptist Young People's Union gave a lawn party last evening at the residence of Rev. W. C. Newton, pastor of the church on North Forbis street, complimentary to the young people in the congregation. A large crowd was present and the evening was most enjoyably spent by all.

A bicycle is always so tired it can't walk.

There are always enough wheels to go around.

If you don't face the world the world will tak behind your back.

Common sense is by no means so common as one would think.

"Any man who is fond of cats", says the confirmed bachelor, "deserves to get married."

Hope springs eternal in the human breast, and sometimes it discolcates itself turning flip-flaps.

A Winter Cough is Bad

enough, but a summer cough is dangerous. Why let that cough run on when **Tar Heel Cough Syrup** will cure you. All druggists, 25 cents, and

STATLER'S HOTEL

HIS LIFE WAS SAVED,

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size bottles 50 cents and $1. Trial bottle free at C. E. Holton's drug store; every bottle guaranteed.

LIKE A RED HOT POKER DOWN YOUR THROAT
Is the horrible sensation experienced daily by sufferers from that nerve shattering malady,
DYSPEPSIA.
It is one of the commonest of all diseases that afflicts humanity, and if not promptly cured, nothing will more surely result in the complete breaking down of health. Hot streaks, acid sourness of the stomach, sick headache, heartburn, vertigo, biliousness, dimness of vision, and other evils arising from a weak, disordered state of the stomach, promptly and effectually cured by
TYNER'S DYSPEPSIA REMEDY.
It makes the digestive organism new by building up the delicate membranes of the stomach and bowels in its gentle, soothing way. Its effect on the entire system is magical. One dose often relieves the most acute distress. A trial bottle will be mailed on receipt of 5 cts. postage. Large bottle regular size, 50 cts. At all druggists, or sent from our laboratory by express, charges paid, on receipt of price. Six large bottles for $2.50.
TYNER'S DYSPEPSIA REMEDY CO., 107½ S. Forsyth St., Atlanta, Ga.
